Snohomish Conservation District Job Announcement

Title:

Low Impact Development Specialist

Place

Lake Stevens, Washington

Salary: \$41,000-\$60,000 DOE

Closing Date: June 18th 2010, 4:30pm

Introduction:

This position is being offered by Snohomish Conservation District located in Lake Stevens, Washington, approximately 40 miles north of Seattle. The position of Low Impact Development Specialist has been developed to implement the District's low impact development activities and to assist in the implementation of the District's urban activities. Funding for this position is subject to availability of state and local government grants and contracts. The person hired for this position is directly responsible to the District Manager, and works under the technical supervision of the Professional Engineer.

Qualifications:

This position requires a solid background in urban planning and development, engineering, communications, and a Bachelor's degree in a compatible field of study from an accredited institution in engineering, natural/environmental science, urban studies, environmental planning, communications, or closely related field. Also required are demonstrated experience and understanding of local urban natural resource issues, interpreting county and city codes, working with the public on natural resources/urban planning issues and addressing and solving resource management problems.

Duties:

The primary responsibility for this position is to coordinate the implementation of the District's low impact development (LID) program and to coordinate activities with District partners and cooperators. The measurement of success is completed LID plans and conservation practices applied in the field that may improve water quality and quantity, wildlife habitat, meet all necessary requirements for standards and specification, as well as work to the advantage of the property owner and the public. Assisting in engineering surveys and design work, including construction inspections of engineering practices, may be included. The incumbent gathers and assembles data for planning systems, independently schedules application and follow-up, revises existing plans and carries out the routine activities of the conservations planning and application phase. This person shall become knowledgeable of the funding contract(s) work tasks and perform them under the direction and guidance of the District Manager.

To apply for this position:

Applicants must provide a cover letter, a completed application form available from the conservation district office or the website (www.snohomishcd.org), a resume, and three professional references. Applications must be received at the Snohomish Conservation District office on or before 4:30 pm, June 18th, 2010. Faxed applications received by the deadline will be accepted if followed by a hard copy. Post-marked applications shall not be considered a substitute for the above requirement. Applicants may be subject to a background check. For more information contact Monte Marti at 425-335-5634 ext. 107.
